

Marketing of new Mont-Blanc Evo product line authorized in the United States

Spineway, specialist in surgical implants and instruments for treating disorders of the spinal column (spine), completed all the regulatory steps and can market its Mont-Blanc Evo product line (presented at the Eurospine conference) in the United States.

This development of the flagship Mont-Blanc line that is already distributed on territory provides surgeons with an implant that can be screwed twice as fast, and with more efficient insertion tools. There will be a standard version (non-sterile) and a “ready-to-use” sterile version, a differentiating feature which is to become popular with US surgeons.

Spineway has already begun production of these new implants and instruments, and should be able to record its first US sales during the first quarter of 2019. In addition, the EC label should be granted in 2019 for distribution throughout Europe and the rest of the world.

Spineway has thus taken its first step toward reconquering the US market and will be accelerating the reorganization of its US subsidiary as per its strategic plan.

SPINEWAY IS ELIGIBLE FOR THE PEA-PME (EQUITY SAVINGS PLANS FOR SMES)
